No. B.-3849 of 1910.

From

The Honourable Surgeon-General H. W. STEVENSON, I.M.S.,
Surgeon-General with the Government of Bombay;

To

The SECRETARY to GOVERNMENT,
General Department, Bombay.

Office of the Surgeon-General with the Government of Bombay: Poona, 14th April 1910.

Sir,

I have the honour to submit, for the information of Government, the Annual Report on the Lunatic Asylums of the Bombay Presidency for the year 1909.

Buildings and Repairs.

2. The usual repairs to the asylum buildings have been carried out by the Public Works Department.

At Naupáda (Thána) quarters for the matron have been completed.

A padded cell, an isolation block and 2 bath-rooms have been added to the asylum buildings.

At Ratnágiri a cook-house has been built on to the quarters of the Civil Medical Assistant. Quarters for 2 sweepers are nearing completion and plans and estimates for the additional accommodation of 17 male and 3 female insanes have been sanctioned.

At Dhárwár the wall enclosing the compound of the asylum has been completed. A plan and estimate for the construction of a new building for the accommodation of female insanes have been submitted. The construction of new quarters for the Senior and the Junior Civil Medical Assistants has been sanctioned. This asylum is still in urgent need of a convalescent ward and a bath-room. The male day barrack and one male and one female cell require to be paved with stone. Further accommodation for the asylum menial staff is also urgently required.

At Ahmedabad the construction of 20 additional cells for criminal insanes has been completed and certain other additions and alterations have been made to the asylum buildings.

At Hyderabad (Sind) a portion of the enclosure wall close to the barracks in the non-criminal yard has been raised, so as to prevent escapes; and additions and alterations to the female yard are nearing completion.

Water-supply.

3. At Colába the water-supply was deficient during the months of March, April, October and December owing to the pressure being low in the main pipe. The laying down of a new main pipe of increased diameter has not yet been carried out. The matter has been brought to the notice of the authorities concerned.

At Ratnágiri the water-supply is still insufficient. A temporary additional bhisti has been engaged to supply water since 15th December 1909.

Remarks on the Tables of Statistics.

4. On the statistical tables appended, at the end of the report, I have to make the following remarks :—

STATEMENT No. I.

Number of inmates compared with last year.

During the year under review the total number of inmates of the asylums was 1,355 or 29 more than in the previous year. During the year 339 patients were admitted against 344 in 1908. The re-admissions numbered 25 against 23 in the previous year. Although a slight decrease is noticed in the total number of insanes admitted and re-admitted, the admissions at Dhárwár and Ahmedabad show a remarkable rise. The number of admissions at the latter rose from 19 to 54, and at the former from 14 to 25. The decrease was shared by the remaining asylums, but prominently by the Colába Asylum where the admissions fell from 70 to 46.

The daily average strength.

The daily average strength was 988·6 (774·9 males and 213·7 females) as compared with 971·4 (756·2 males and 215·2 females) in the year 1908.

Discharges and cures.

Of the total number of lunatics confined in the several asylums, 120 were discharged cured against 153 in 1908. 104 insanes were transferred to the care of friends against 87 in 1908. Of those transferred under this head 74 had improved and 30 had not improved while under treatment.

Of the 17 male insanes shown as discharged "otherwise" 6 escaped from the asylums, 5 were removed to the non-criminal list, 2 were transferred to Civil Hospitals for treatment, 1 to a prison, 1 to another asylum, and 1 from the undiagnosed to the diagnosed class.

Sickness.

The daily average of sick was 23·9 against 28·9 in 1908. The general health of the inmates was, on the whole, satisfactory.

Cholera.

At Naupáda (Thána) cholera prevailed from 13th August to 7th September. There were 41 attacks and 34 deaths. Th source of infection was not definitely traced, but Major Evans, I. M. S., who was deputed to supervise the operations during the outbreak, considered that the infection was most probably brought into the asylum by means of vegetables from the kitchen garden, parts of which were used for trenching purposes. The various recommendations made by him are under consideration, and are being carried out.

At the Poona Lunatic Asylum cholera broke out on the 7th July and lasted for about a week. There were 5 cases with 3 deaths. The cases were of a sporadic nature, and there was no reason to suppose that the source of infection was from within the premises of the asylum.

Mortality.

During the year under report the mortality was high. There were 130 deaths against 86 in 1908. The increase was mainly due to the very high mortality at the Naupáda Asylum (Thána) where the number of deaths (including the 34 deaths from cholera mentioned above) was 79 against 17 in 1908. The other principal causes of mortality were debility and anæmia 17, diarrhœa 12, dysentery and tubercle of lungs 8 each, and malaria 7. The ratio of deaths to the daily average strength per cent. was 13·1 against 8·9 in the previous year.

STATEMENT No. II.

Return of criminal lunatics.

On 1st January 1909, 142 males and 18 females remained from last year. During the year 1909, 38 males were admitted and 1 male was re-admitted, giving a total of 199 or 1 less than in the year 1908. Of these, 28 males and 1 female were discharged or transferred, 10 males and 3 females died, and 143 males and 14 females remained at the end of the year. The daily average strength of these insanes in 1909 was 156·5.

STATEMENT No. III.

The religion, sex and residence of the insanes admitted during the year.

Of the admissions and re-admissions, 21 were Europeans and Eurasians, 25 were Native Christians, 180 were Hindus, 114 were Mahomedans and 24 were of other castes.

STATEMENT No. IV.

The previous occupations of the insanes admitted during the year 1909.

Labourers, as usual, formed the majority; they numbered 33. There were 27 domestic servants, 26 mendicants, 24 merchants and traders, 21 artisans, 16 cultivators, 14 clerks, 11 soldiers and 55 of various occupations. In 76 cases the previous occupation was not ascertained and 61 had no occupation.

STATEMENT No. V.

The ages of the insanes admitted during 1909.

21 insanes were under 20 years on admission, 264 were between 20 and 40 years, 75 were between 40 and 60 years and 4 were over 60 years of age.

STATEMENTS NOS. VI AND VII.

The types and causes of insanity among the lunatics treated in 1909.

Mania accounted for 688 cases, melancholia for 366, dementia for 154, idiocy for 71, delusional insanity for 61, mental stupor for 7 and general paralysis of the insane for 3.

5 cases were declared to have recovered, or were under observation as not yet diagnosed.

With regard to the causes of insanity, physical causes were assigned in 601 cases and moral in 144 cases. Of the former, the use of intoxicating drugs and over-indulgence in spirituous liquors, previous attacks, fever, epilepsy, hereditary causes and mental trouble were the chief. The cause of the insanity was unknown in 610 cases.

STATEMENT No. VIII.

The cash accounts of the asylums.

The total receipts and expenditure amounted to Rs. 2,63,279-7-2 as compared with Rs. 3,30,983-13-7 in 1908.

The receipts from paying patients rose from Rs. 25,593-14-0 in 1908 to Rs. 26,634-10-11.

The value of stores received from the manufacturing department, less cost of raw materials, increased from Rs. 2,815-1-4 in 1908 to Rs. 2,959-11-7 in 1909.

Deducting the amounts realized from these two sources and the amount on account of the sale of goods, etc., the net expenditure was Rs. 1,96,826-5-6 or Rs. 70,461-2-3 less than in the previous year.

The decrease was due to less having been spent on works done by the Public Works Department, *viz.*, Rs. 39,286-5-9 against Rs. 1,10,476-0-8 in 1908.

The expenditure under the heads diet, clothing and bedding and medicines shows an increase over the preceding year, which may be attributed to the larger number of insanes treated during the year.

The expenditure incurred on account of the recreation and amusements provided for the insanes was Rs. 1,703-10-1 as compared with Rs. 2,178-12-5 expended in 1908.

STATEMENT No. IX.

The sanctioned establishment as it stood on 31st December 1909.

The statement as regards the menial establishment has been revised in accordance with Government Resolution, General Department, No. 5113, dated 1st October 1909. The monthly cost of the establishment amounted to Rs. 6,223-8-0 against Rs. 6,205-8-0 in 1908.

STATEMENT No. X.

The receipts and expenditure on account of manufactures in the asylums.

The total receipts amounted to Rs. 5,491-11-4 and the debits to Rs. 1,839-9-0 as compared with Rs. 5,276-6-10 and Rs. 1,625-2-5, respectively, in the previous year.

The manufactures yielded a profit of Rs. 3,652-2-4 which is practically the same as was realized in 1908.

The average number of insanes employed on manufactures was 333·9 against 268·4 in the preceding year.

Visitors.

5. The official visitors were regular in their attendance.

Mana ement.

6. The condition of the asylums generally is one of steady, though not very rapid, improvement. A good deal has been done towards the improvement of the buildings. The Superintendents of the various institutions have carried out their duties satisfactorily during the year. The great need of the asylums is a more intelligent and better class of men and women as warders and wardresses. The question of the pay of these is still under the consideration of Government. The need of a large central establishment where such servants can be efficiently trained in the care and treatment of insanes is much felt.

I have the honour to be,

Sir,

Your most obedient servant,

H. W. STEVENSON, Surgeon-General, I. M. S.,

Surgeon-General with the Government of Bombay.

The capacity of the Colába Lunatic Asylum is, at 50 superficial feet per patient, for 90 Europeans—70 males and 20 females, and for 168 natives—104 males and 64 females; the maximum number of European lunatics confined on any one night was 29 males and 12 females, and that of native lunatics 76 males and 42 females.

The capacity of the Narotamdas Madhavdas Lunatic Asylum, Naupáda, is, at 140 superficial feet per paying patient, and at 80 superficial feet per pauper patient, for 198 males and 42 females; the maximum number of lunatics confined on any one night was 222 males and 61 females.

The capacity of the Ratnágiri Lunatic Asylum is, at 50 superficial feet per patient, for 73 males and 39 females; the maximum number of lunatics confined on any one night was 82 males and 31 females.

The capacity of the Poona Asylum is, at 50 superficial feet per patient, for 108 males and 24 females; the maximum number of lunatics confined on any one night was 107 males and 28 females.

The capacity of the Dhárwár Lunatic Asylum is, at 50 superficial feet per patient, for 64 males and 24 females; the maximum number of lunatics confined on any one night was 70 males and 22 females.

The capacity of the Ahmedabad Asylum is, at 50 superficial feet per patient, for 90 males and 18 females, and at 75 superficial feet per patient for 20 male criminal lunatics; the maximum number of lunatics confined on any one night was 107 males and 21 females.

The capacity of the Hyderabad Asylum is, at 50 superficial feet per patient, for 185 males and 33 females; the maximum number of lunatics confined on any one night was 136 males and 9 females.

* Two transferred to the Gokuldas Tejpal Hospital, Bombay, for treatment and one escaped.

† One transferred to the Thana Special Prison and other escaped.

‡ One transferred from the class of undiagnosed lunatics to that of diagnosed lunatics and two transferred from the criminal to non-criminal list.

Three escaped.

§ Transferred from the criminal to non-criminal list.

* Two transferred to other Asylums and one transferred from the criminal to non-criminal list.

† One transferred from the criminal to non-criminal list and one escaped.
